

REFLEX NH1

**NON-HAZARDOUS
LIQUID WATERPROOFING**

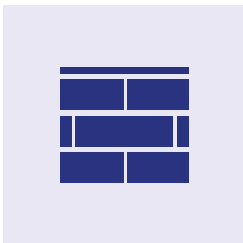

ETC[®]
ITALCHIMICA

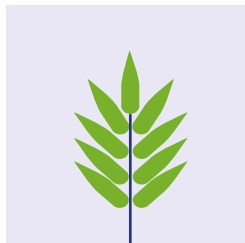

REFLEX NH1

THE ONLY-COMPONENT MEMBRANE FOR WATERPROOFING SYSTEMS,
IDEAL FOR: ROOFS, TERRACES AND BALCONIES

■ ADVANTAGES

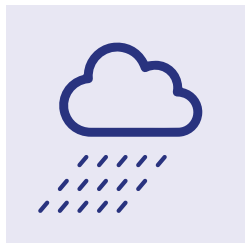

Adhesion on membranes
bitumen, pvc, concrete,
metal, etc.

**Low environmental
impact**, and no danger
to users and transport

**High elasticity
and crack-bridging**

Weather-resistant
(sun, wind, hail and snow)

■ QUICK APPLICATION

ROLLER

BRUSH

AIRLESS SPRAY GUN

SEAMLESS WATERPROOFING

- > APPLICABLE FROM +5°C TO +35°C
- > PERMEABLE TO WATER VAPOR

DURABILITY
UP TO
30
YEARS

■ APPLICATION

surface preparation and construction details + application of specific primer as TDS

application of reflex system in two coats with non woven fabric + application of Aliphatic Top Coat

REFLEX NH1 IS AN EXCELLENT NEXT-GENERATION WATERPROOFING SYSTEM. IT DELIVERS SUPERIOR PROTECTION AND LONG-LASTING PERFORMANCE. ENGINEERED FOR DURABLE, RELIABLE RESULTS IN DEMANDING APPLICATIONS.
